PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size*, heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes*, or *forty eight parts*.

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume 1 will be ornamented with an excellent Portrait of Sir Walter Scott.

DAILY PITTSBURGH GAZETTE.

THURSDAY AFTERNOON, OCT. 3, 1833.

☞ The Mail.—Again we have no papers from Baltimore, Philadelphia, New York, or Boston.

Our other favorite, John Sergeant.—In the expose of the reasons which induced some of the National Republicans of the county to support the Van Buren ticket, as published by a *young* National Republican, in the Statesman, of yesterday, one reason assigned was, that the *forty four* Antimasons would not abandon their own candidate, and vote for John Sergeant for Senator. The Antimasons had a candidate quite as respectable, more experienced in public affairs, and if not quite as able, certainly ranking very high as a man of talents. With what propriety, then, could *forty four* of them be asked to go over to a candidate who had originally but *eighteen* votes.

There is now an election for Congress approaching, in the first Congressional district, to fill a vacancy occasioned by the resignation of Joel Sutherland, who was not long since appointed a judge. *Our other favorite*, John Sergeant, is one of the candidates, and this same Joel Sutherland is his opponent, and is supported by the whole Van Buren Jackson party.—The following article, from the Harrisburg Chronicle, a Jackson paper, professes to announce the result:

Democratic Meetings—First Congressional District.—Dr. Joel B. Sutherland has been nominated for Congress, by the Democrats of this district, in opposition to *John Sergeant*, and *will no doubt beat him handsomely.*"

We now ask our *young* National Republican what he thinks of this.—Here "the man of principle in proportion to his interest"—the man who had just been appointed a judge, who had only a few weeks ago resigned his seat in Congress, is likely to be re-elected by the compatriots of Lynch, and Mulvany, and Gallagher, over the head of "*our other favorite, John Sergeant.*"

In Pittsburgh, the National Republicans are asked to support the Van Buren ticket, because the Antimasons would not support their "other favorite, John Sergeant," *last winter;* and, *at this very moment*, the Van Buren men in Philadelphia are straining every nerve to elect Joel Sutherland over that same "favorite." Oh! but this is disgusting!

The Election.—Tuesday next, is the day for selecting our representatives in the Legislature, and other officers. We trust that our friends, one and all, *in the country*, will feel it their duty to attend and give their suffrages for men who will not subserve the purposes, or promote the intrigues of the great Magician. We trust they will manfully and fearlessly sustain representatives, in whose conduct no error has been discovered, even after the most rigid scrutiny.

In this city, we will have a severe struggle—our prospects are here much better than we thought them two or three days ago. The *young* National Republicans, whose hearts are unseared by their intercourse with the world—who view with detestation the intrigues of older men—the young men with pure hearts, lofty spirits, and honorable feelings, cannot discover the consistency of *condemning* Martin Van Buren and *voting* for his *friends.* At a meeting of the National Republican Young Men's Society, called for the purpose of pledging the society to vote for the combination ticket, such pledge was rejected, and a resolution, censuring the conduct of the Antimasons, last fall, was *only* carried by the casting vote of the President.

One member of the association, who was *opposed* to the resolution, declined voting, because he had not signed the constitution, although he had been admitted as a member a year ago.

We were, yesterday, requested to republish Mr. W. W. Irwin's Address to the people of Allegheny County, in reply to a charge made against him at a meeting at Thomas Wynne's, on the 25th ult.—We declined publishing the Address, on account of its great length, and for other reasons, but still, we feel disposed to do him justice, in relation to this false, unfounded charge against him, and therefore publish the following extracts from his Address, premising merely that Mr. Irwin was himself a member of the Committee of Ways and Means.

"The charge referred to is contained in a resolution of the Meeting, and is as follows:—

"*Resolved*, That the public confidence, placed in Wm. W. Irwin, by the voters of a portion of the Democratic party, at the last election, has been most wantonly abused by his vote on Mr. Bertels' resolution, on the 25th January last, instructing the committee of ways and means to bring in a bill, imposing a duty on coal."

Now I do most unequivocally declare that *there is not one word of truth* in the statement embodied in the foregoing resolution, and pronounce it absolutely and unequivocally a falsehood. It is not true that I voted for a resolution "instructing the Committee of Ways and Means to bring in a bill imposing a duty on coal;" and it is not true that any such resolution was offered by Mr. Bertels, or any other member, at any time during the last session. The assertion, therefore, that Mr. Bertels offered such a Resolution, and the charge that I voted for it, are both mere fabrications, got up on the eve of the election, for the purpose of inturing me in public estimation.

The only resolution that was offered by Mr. Bertels, and referred to the Committee of Ways and Means, was one presented by him in the House of Representatives on the 15th of January last. (See Journal of the House, vol. 1, p. 201.) It was in these words, viz:

"*Resolved*, That the Committee of Ways and Means be instructed *to inquire* into the expediency of creating a Canal Fund from the proceeds of unseated lands, a duty on coal, *or any thing* the Committee may think proper a fund might be raised from, and report to this House as soon as possible."

On this resolution the yeas and nays were called by the mover, and stood thus: yeas 53, nays 39. My vote will be found recorded in the majority; and I have no hesitation in giving my reasons for voting with the majority.

The resolution of Mr. Bertels was one asking that a standing committee, the Committee of Ways and Means should, investigate a particular subject; that they should "*inquire* into the *expediency* of creating a Canal Fund from the proceeds of unseated lands, a duty on coal, *or any thing* else." It had been my rule, and a rule with a majority of the members, to vote for every resolution which would merely go to solicit information, or instruct a standing committee to inquire into any subject proper for investigation. It is one of the principal duties of the standing committees to make inquiries proposed by the House, to collect facts, and report the same for the information of the members. It is rarely indeed the case that a resolution directing a standing committee to inquire, is rejected; and when it is so, it is considered a decided mark of disrespect to the mover—Not a single instance of the kind occurred during the last session.

When, then, Mr. Bertels offered his Resolution directing the Committee of Ways and Means, of which I was a member, to make the proposed inquiry, I did not feel myself at liberty to vote against it, or to shun the labor and responsibility of any investigation demanded at my hands.—I voted for the Resolution, and it passed; and I will now ask you, my Fellow Citizens, whether my vote upon that occasion will justify the charge that I was in favor of *taxing coal*, or of taxing any thing else? I did then believe, and do still believe, *a tax upon coal* improper and inexpedient, and I was fully persuaded that an investigation could be productive of no possible evil, but on the contrary, would *prove* that *coal* was *not* a proper object of taxation.—Besides, I felt satisfied that the investigation could not be made at too early a period, or the results be too soon laid before the House of Representatives, when I reflected that at former Sessions the Governor of the State had suggested the imposition of a Duty on Coal as a source of Revenue. Ought I, then, to have voted *against* the "*inquiry*," when my situation, as a member of the committee, would afford me an opportunity of showing, conclusively, that the interests of this County, and of Western Pennsylvania, could not bear any tax on that essential article? Was it better to stifle "*inquiry*," or to have the matter completely put to rest, *after full investigation?*"

Subsequently, Mr. Irwin proceeds as follows:

"And what was the result of their investigation? Did the Committee of Ways and Means bring in a bill to tax coal (which they would have been obliged to do, if, as my enemies say, they had been *instructed* so to do? No. Did they report a bill to tax any thing else? They did not. Did they report favorably to the expediency of creating a canal fund either now or hereafter? Why, no, not one of all these did the committee think it necessary to do. But *after* mature deliberation the members of the committee voted *unanimously against* the expediency not only of taxing coal, but of taxing any thing else at present, for the purposes of internal improvement. *After* investigation we were of one mind, that it would be inexpedient and unnecessary at present to create a canal fund by a resort to additional taxation."

Accident.—We are informed that at about six o'clock, yesterday morning, the balance wheel of the Pine Creek Rolling Mill broke, and that some of the pieces being thrown off by the centrifugal force, struck John Francis, and another man of the name of Scott. The former was so much injured that he died about ten o'clock yesterday: some hopes are entertained of the recovery of the latter.

William W. Irwin.—We publish, to day, an extract from the frank, manly, and conclusive reply of this gentleman, to the false and unfounded calumny which was promulgated against him, in a public meeting, held at Wynne's, on the 25th of September.

The resolution, we are informed, was offered by Mr. Wilson M'Candless; and, at the moment he offered it, he must have known it to be false.—There can be no mistake in this matter—he had examined the Journal—he refers to Mr. Bertels' resolution—and to the very day on which it was offered—fully showing that he knew the whole truth.—We thus notice this matter, because Mr. M'Candless imposed upon the meeting, and upon Mr. Travillo, who, we are satisfied, would never have placed his signature to these proceedings, if he had known that they contained such a base and unfounded calumny.

Mr. M'Candless has, all at once, become very sensitive upon the subject of a coal tax. Governor Wolf, previous to the last gubernatorial election had, *twice*, in his Messages, *directly*, *earnestly*, and *strenuously*, recommended the imposition of a *tax upon coal*; and, yet, Mr. M'Candless supported his re-election with all his might.

But when Mr. Irwin voted for a resolution referring the mere consideration of this, *among other matters*, to a committee of which he was a member, and of which five were from coal regions, and the other two from Philadelphia, the great consumer of coal, and, of course, all interested *against a tax upon coal*, Mr. M'Candless is monstrous wrathy. Where, we ask, could this matter be more safely trusted? Where was the *earnest* and *repeated recommendation* of Governor Wolf, in favor of a coal tax, more likely to receive its *death blow*, than in this very committee? In this committee it *did receive its death blow;* the committee were, as Mr. Irwin might expect, *unanimous against a tax upon coal*, and we venture to assert that Governor Wolf will never again *dare* to recommend a tax upon coal. This committee have settled this question; and if Governor Wolf has not *brains* enough to understand the interests of this commonwealth, he has *nerves* enough to shrink and tremble before the reprimand of the committee.

For the Gazette.

Mr. Craig—Permit me, through the medium of your paper, to notice an insolent attack (in the Pittsburgh Mercury, of 13th ult.,) upon the character of John Ross, a respectable citizen of St. Clair township, to which is annexed a certificate, signed by David Stewart, John S. Scully, William Carnahan, and Alex. Carnahan, purporting to be a refutation of a slander, circulated by John Ross, to injure the election of Wm. Kerr, now a candidate for the State Legislature.

He is charged with circulating a report that Wm. Kerr (at the view of the road, between M'Donald's and Ingram's, in said township,) had made assertions censuring Catholics and the Catholic Religion. I observe, with pleasure, the dignified manner in which this gentleman treats, with silent contempt, this base political manœuvre. This certificate is so senseless and destitute of point, that I would not notice it at all, if I thought every reader would understand its contemptible design. I am not at all apprehensive that the character of Col. Ross will be affected by any thing these men may certify, where both parties are known. But every friend of truth, and lover of his country, will deprecate these political demagogues, who thus single out influential men, whom they cannot bring over to their disgraceful measures, and level at them the shafts of wicked calumny, thereby, if possible, to counteract their influence.—What do these men certify? "Having been informed that John Ross has reported," &c., they certify that they never heard Mr. Kerr say what they have been informed Mr. Ross reported. Might not Mr. Kerr have said these things at the view, and these gentlemen not have heard him? Did John Ross report these things to injure Mr. Kerr? Have the Messrs. Carnahan forgotten the conversation they and Wm. Kerr held with John Ross, on the road going from M'Donald's to Pittsburgh, and can they stifle their concern, (if office hunters have any,) and certify that they never heard Mr. Kerr speak against Catholics, or Catholic Religion—"a faithful witness will not lie, but a false witness will utter lies."

Do these men expect to gain a few Catholic votes for Mr. Kerr by this certificate? Having taken some pains to ascertain the true circumstances of the case, from authority that cannot be questioned, I wish to exhibit the real character of this certificate, and the grounds of the charge against John Ross, that the public may be enabled to arrive at the truth, and place the epithet, "slanderer," where it is due.

In a conversation between James M'Donald and John Ross, after the view of the road, M'Donald appeared dissatisfied, and said he had thought Wm. Kerr and the Carnahans his friends. Ross replied, that it was easy for men to be mistaken, and from the conversation and disposition manifested by the viewers, they were not his friends, nor the friends of the Roman Catholics. That such a disposition was manifested against M'Donald, by the viewers, I would refer to a respectable citizen of the county, Major Andrew M'Farland, who was present, and told M'Donald he had not a friend on the view but John Ross.—That John Ross has circulated this, or any other report, for the purpose of injuring Mr. Kerr's election, I believe to be false, and entirely unfounded. It is a known fact, that Ross is not favorable to the election of Kerr. I have often heard him solicited to state facts, showing Mr. Kerr's incapacity for office, which he uniformly refused to do.—But who are these men who have thus certified against Ross? With the exception of John S. Scully, they are, in conjunction with Wm. Kerr, the personal enemies of Ross. The charges set forth against him are of the same character with the oaths these men swore against him, in the Court of this county, (in the case of the Chesses,) to injure his character; and, as it is well known, the Court and Jury sustained the statements of Ross, and decided in his favor, and not according to the statements these men made against him upon *Oath.* We are confident, the searcher for truth will not believe their *bare assertions;* and, after examining the case, will justly stamp upon them the epithet they wickedly intended to bestow upon Mr. Ross. Whether the insolent attack, under the editorial head, (in reference to this gentleman,) be the product of the accredited editor, or one of the same party with the certifiers—as it is fathered by him—we only deem it necessary for the searcher for truth to remember that it was published by Joseph Snowden, *printer* of the Pittsburgh Mercury. "A false witness shall not be unpunished, and he that speaketh lies shall not escape." A Friend to Truth.

Arrivals at, departures from, the Collector's Office, in Allegheny town, during the week, ending September 28, 1833—whole number, 49

Amount of Tonnage, -	1,372,475 lbs.
Cords of Wood, - -	58 1-2
Amount of Toll, - -	$825 22 cts.

Canal Tolls.—The tolls received at the collector's office, in this place, during the present year, were as follows:—

1st Quarter,	- - -	$ 952 00
2d do.,	- - -	5,239 89
3d do.,	- - -	4,000 00
		$10,191 89

During the *same period*, last year, the whole amount of tolls received was $3,687 97, making a difference in favor of the present year, of $6,503 92.—*Blairsville Record.*

Canal Transportation.—A lot of goods was received at this place, last week, by the "Boatman's Line," in only *eight days* from Philadelphia.—This is the quickest passage that has been made even by canal boats. Formerly goods could not be delivered here, from the city, by wagons, in less than *eighteen* or *twenty* days. Here, then, is one of advantages of our improvement system; but there is another; goods can not only be brought quicker, but *cheaper.* The cost of carriage, by wagons, was from $2 50 to $3 25 per hundred; now, by the canal, it is only $1 25 per hundred.—This is an advantage which will be felt, more or less, by every individual in the community; for, as the first cost of store goods become reduced, competition will naturally cheapen their price to the consumer.—*Blairsville Record.*

Improved Railway.—We have been favored with the sight of the model of a new mode of railway conveyance, which, if brought into use, will present extraordinary advantages to the public.—It is on the principle of the Saxton locomotive pully, and according to the calculations of the projecter, who is an engineer of some celebrity, the average rate of traveling will be nearly thirty miles an hour on a light railway laid upon the ordinary road, without requiring the least expenditure for leveling, so that the cost per mile, instead of being £20,000, as it is on the railways now in use, will be only £5,000. According to the proposed plan, a horse, walking at the rate of two miles and a half an hour, over a distance of only one hundred yards, will be able to draw a light carriage containing four persons, a distance of more than one thousand six hundred yards within the same period of time as that occupied by the animal in performing its own distance. The carriage, on arriving at the end of a mile, will be carried by mechanism from the truck on which it is placed to another truck in waiting to receive it, and the same will be done from mile to mile to the end of the journey, each succeeding carriage being drawn in a similar manner to the first, until the whole train shall have passed over the railway.—*London Sun.*

English Coal.—In all the principal towns of England, coal is almost the only kind of fuel used; and the demand is so great that an immense number of vessels is engaged in transporting it from the neighborhood of the mines. It is the coal trade which constitutes the nursery for English seamen. The colliers have all a great number of apprentices on board, and some are navigated entirely by these young sailors, even to the officers.

Some idea may be formed of the quantity of coal used in England, from the fact that during the year 1832, the amount conveyed to London, by water, of course, was 2,139,078 tons! or 719,026 ship loads of 300 tons each, and this to one single port alone, without even glancing at the immense shipments made to other portions of the British dominions.

It is the secretary of the treasury, only, who has power by law to remove the deposits—and to remove them, Mr. Duane was removed.

An expectation is held out in several of the papers, that the bank of the United States will be re-charted, notwithstanding the determination and proceedings of the executive. We think that the prospect of this is a very "slim" one. But the *effect* of those proceedings may materially change the aspect of things. *What if Congress shall order a return of the deposits?* Many think that such an order will issue. It is congress, and not the executive, which holds the purse strings of the nation.—*Niles.*

During a military parade, at Cleveland, Ohio, the Court felt so annoyed by the music that the President Judge had the officers arrested and bro't before him, but upon their declaring they had no intention of disturbing the proceedings, they were discharged. The occasion gave rise to a long address on the relative nature of civil and military power, by Judge Wright.—*Phila. Chron.*

We understand that the new bituminous coal, from Cambria county, which has reached this market, has sold readily to blacksmiths at 31 cents per bushel, on the Schuylkill.—*Phil. Chron.*

We are indebted to the politeness of the Collector of Tolls for the following interesting item of intelligence, which shows the increasing importance, and value of the trade of the Ohio Canal in a very favorable light.—*Cleveland Herald, Sept.* 28.

"*Heavy Tolls.*—On the 13th instant, the master of the Boat Kentucky, belonging to the Troy & Ohio Line, paid to the Collector of this place the Toll on a single cargo of marchandise amounting to $251 17; and on the 25th, the master of the Boat Delaware, belonging to the Ohio, Troy and Erie Line, paid to the same collector, $301 39 on a single cargo."

From Sumatra.—The brig Neptune, arrived at Salem on Saturday, brings, as we learn from the Register, a confirmation of the intelligence previously received, in regard to the failure of the new peper crops. The cultivation of the soil had been neglected, in consequence of the civil wars which were raging among the different clans. A large number of vessels were on the coast, and it was doubtful whether they could obtain full cargoes the present season: it was estimated that by the first of July there would not be 1000 piculs of pepper to be had on the whole coast. Capt. G. informs us, that the natives continue friendly to the Americans, and still remember the visit of the "big ship."—*Boston Journal.*

Mexico is in an awful state between the ravages of the cholera, and the desolations of her rival generals. The first, it is hoped, will soon disappear—but the people have no prospect of being liberated from the latter. One half of Santa Anna's army of 2,000 men, for an example, had fallen victims to the cholera, and battles have been fought in which the brother killed the brother whom the pestilence had spared! General Duran, the most active of the "insurgent" chiefs, had died of the cholera, and the president, general Santa Anna, was sick at the last account, but expected to recover.

Germany.—Liberty has gained another triumph, Doctors Worth and Siebenpfeffer have been tried and acquitted. These distinguished patriots, men of great learning and science, were accused before the Tribunal of Landau of high treason.—The circumstances which led to this vile charge, was the bold and intrepid manner in which these liberal minded individuals arraigned the conduct of the Confederation, and the infamous edict which issued from the Diet of Frankfort. For this they were arrested, their houses pillaged, their property destroyed, and themselves thrown into prison.—Their speeches were denounced as seditious, their doctrines as revolutionary, and they were charged with having a design to overthrow the government. The learned Doctors conducted their own defence! and, as the conclusion shows, with eminent success. They did not shrink from avowing their sentiments,—they reiterated the very principles in their addresses to the Jury for which they were defending their lives—they fearlessly relied upon these doctrines, and asked for death, if these opinions were not permitted to be held. An honest Jury coincided with their sentiments, approved of their principles, and have nobly restored them to life and liberty.

Another Forgery.—A forgery was committed on the Bank of Middletown, on Monday last, by Gotlieb Kreider, a schoolmaster, residing in Millerstown, Lebanon county. The facts, as far as they are within our knowledge, are as follows:—On Monday morning, Kreider presented at the Bank, for discount, a note of $1,000, payable in 60 days, to which he had forged the names of David Mitchell, Esq. and Peter Bachman, of Lebanon county, as endorsers. The note was discounted and the money paid to Kreider, who deliberately went to the tavern and took his dinner, and then started for home. The forgery was suspected soon after, and he was pursued and found in his own house, about midnight, from which he escaped, by jumping through a window in the second story.—The night being dark he got off, and has not been heard of since. The persons in pursuit made a diligent search in the house for the money, but did not succeed in finding it. The money, however, has since been found, by the wife of Kreider, who with a promptness and honesty deserving all praise, restored it to the Bank. She is said to be an excellent woman, of respectable connections. Kreider is also of a highly respectable family, but has not, heretofore, borne a very good character.—*Harrisburgh Reporter*

Cumberland, (Md.,) Sept. 24.

Melancholy Occurrence and Suicide—On the morning of Tuesday last, Doctor *Charles V. Swearingen*, residing near Cresap town, in Allegany county, shot a young man, Mr. *Bayard Thistle*, son of Mr. George Thistle, in the back, and then, in about ten minutes after, he shot himself. The circumstances attending this tragical affair, we learn, were as follows:—Mr. Thistle was on a visit to Dr. Swearingen's, where he was very kindly received by the Doctor, not the least animosity being shown by him towards Mr. T. but the Doctor was evidently somewhat deranged in his mind, and had been so for several days—saying that some person was after him, and intended to kill him, or take him off to jail, &c.—and on the above morning, as Mr. Thistle stepped to the door to look out, Dr. S. was in the room, and all of a sudden, looking very wild out of his eyes, he said some man was then about the house, who intended to kill him, and snatching down the gun, he fired at Mr. T., whilst standing in the door, the contents of the gun entering his back, and he fell upon the porch. Dr. S. then went into the kitchen, and putting his head out of the window enquired what was the matter. Upon being told that he had shot or killed Thistle, he said he would kill himself, and he then came out, went round a corner of the house, and reloaded the gun. His father, however, went into the yard, and requested him to give him the gun, but he refused, unless he would shoot him with it,—his father told him he would not do that, but would put the gun where it ought to be. He still refused, and said if he was not shot he would be hung. His father finding he could not get the gun from him walked into the house, to the aid of young Thistle. In a few minutes after, the report of a gun was heard outside the house, and upon going out, the Doctor was found lying on the ground, lifeless, the load of the gun having entered his left breast. The manner in which he effected his purpose, as related by his little daughter, who was the only person who witnessed the deed, was by placing the butt end of the gun on the fence, and holding the muzzle against his breast with one hand, with the other, with a long stick, he pushed back the trigger.—Verdict of the jury, that he came to his death by shooting himself.

Dr. Swearingen has left an amiable wife and three young children. Mr. Thistle is now lying at the house of his grandfather, Maj. J. H. Bayard, of Cumberland; there are hopes of his recovery, but we learn that his physician still considers it doubtful whether he can survive the injury he has received.

Mr. Thistle is a younger brother of the lawyer of that name, and not the lawyer, as stated in some of the papers. He had just returned from New York, where he had resided for the last two or three years.—*Civilian.*

[Dr. S. was the brother of George Swearingen, Sheriff of Washington County, who was hung, about three years since, for the murder of his wife, a most amiable lady, and sister of the Doctor's wife.]—*Chambersburgh Repository.*

We are sorry to learn that a number of cases of cholera occurred at Hagerstown last week, several of which proved fatal.—*Franklin Repository.*

U. S. Bank.—We have given, in this paper, the President's "*facts and reasons*," for the removal of the deposits of the public money from the Bank of the United States; and the *Report* solicited and obtained from the Governmental Directors of that institution, alluded to in the President's expose. These papers will be read with great interest; and, coming from the quarter they do, we are sure, will have an influence upon public opinion which it will be useless to attempt to resist. The fate, therefore, of the Bank, may be considered as sealed. For upwards of four years, President Jackson has been instigating and aiding, by all the means his official station have placed at his disposal, a continual warfare against the Bank—he has assailed it as unconstitutional, inexpedient, and corrupt! The Civilians, and the Judiciary of the Union, have pronounced it constitutional—experience has proved it to be expedient—and Committee upon Committee of Congress have reported in its favor against all the charges brought against it. These opinions, decisions, and reports, the Bank has, in self defence, circulated among the people; and *we* verily believe,

"*The very head and front of its offending,*
Hath this extent, no more."

The British bill for the abolition of colonial slavery has passed both houses, and only awaited the royal signature to become a law. The *king* will not veto it.

We understand that the following Banks have been selected, by the Secretary of the Treasury, for the deposit of the money of the United States in the places where they are respectively situated. The change to be made on the 1st of October next.

Baltimore—The Union Bank of Maryland.
Philadelphia—The Girard Bank.
New York—The Mechanics' Bank.
Do. —The Manhatten Company.
Do. —The Bank of America.
Boston—The Commonwealth Bank.
Do. —The Merchants' Bank.

We understand that another Bank will be added in Philadelphia, as soon as the proper inquiries and arrangements can be made; and, probably, also another in New York. And that the necessary preparations are in progress, for carrying the measure into full effect in other places, as speedily as practicable.—*Globe.*

A discovery of considerable importance as connected with the production of steam, has just been made by the superintendent of one of the gas establishments in the metropolis. He has ascertained that an excellent fuel may be provided in coke, gas, tar, and water, applied in particular proportions; and as the weight of this fuel is little more than one third of that of the quantity of coals requisite to produce the same result, it will no longer be difficult to establish communication by steam with india and other distant parts of the world, the great and indeed hitherto insuperable objection, the weight and bulk of the fuel, being now removed. Colonel Torrens, the member for Bolton, some time since, we understand, took out a patent for a discovery of a locomotive power, still more astonishing than this, for his principle was a power derived from an article requiring so little bulk that a quart of the liquid would produce sufficient for the impulsion of a ship or carriage over fifty miles. The subtlety of this article, however, is said to be such, that it cannot be confined within any known metal, and therefore the discovery is without beneficial result. There is no objection of this kind to the new discovery above named.

On the 25th ult. Mr. J. Billingham, a member of the Winslow Blues, was killed at Boston, by the discharge of his musket, at a review. The piece accidentally exploded, while he was in the act of running, and blew off a part of his face. He survived the accident but a short time.

The cotton crops are beginning to come fairly into market, and the prices now assume a fair average, which, we trust, will soon enable the dormant manufactories to resume their business. At Charleston, S. C., 100 bales of new Upland were sold, on the 20th inst., at 16 3-4, and at Camden the prices are now quoted at 15 a 15 1-2 cents.

Salt Manufacture.—We copy the following advertisement to show the extent of the manufacture in the west:

"Proposals will be thankfully received until the 1st day of November next, for furnishing us, at Lynchburgh, Virginia, ten thousand *sacks* per annum, for two to five years, capable of safely containing, for transportation, 250 pounds each of common salt, on the average; for which cash or bills, well secured at twelve months, payable at New York or Baltimore, will be given; and the contractor must also give satisfactory security. If sufficient inducement is given us, we may take 2,500 bags, or sacks, per annum, for ten years.—Cotton bagging, and other bagging factories, are requested to notice this, and give us the earliest notice at *Abingdon, Virginia*, as we are determined to adopt some plan of cheapening the containers of salt in this quarter."

The Offering for 1834.—This is the name of an elegant Annual, got up by Mr. Ash of Philadelphia, of which we have had the pleasure of seeing a copy complete. Its distinguished beauty is in its *mezzotinto* plates, of which it contains ten, exquisitely finished, by Mr. J. Sartain. This is a new style in the United States, but from the appearance of these specimens, as well as the popularity of those heretofore in the London Friendship's Offering, we cannot doubt the success of a work on the above plan. The writers are Miss Gould, Mrs. Sedgwick, Mrs. Sigourney, Morris, Thompson, Clark, and others.—*Boston Journal.*

An address was recently delivered at New Lisbon, Columbiana Co. Ohio, by the Rev. E. N. Scroggs, on the subject of Freemasonry, and it is said that 1,000 persons were in attendance, from all sections of the country.

Dr. Pratt's Artificial Nipples,

FOR THE CURE OF EXCORIATED, OR SORE NIPPLES—Just received and for sale by JOHN M. SNOWDEN, Jr. & Co., corner of Market and Fourth streets, Pittsburgh.

September 20, 1833.

TESTIMONIALS.

New Haven, May 17, 1832.

I have witnessed the application of the Artificial Nipple, invented by Dr. Pratt. It operated well, much to the satisfaction of the mother. The instrument seems well adapted for such as are afflicted with excoriated nipples.

THOMAS HUBBARD, *M.D.*
Professor of Surgery in Medical Institution of Yale College, Connecticut.

I have examined Dr. Pratt's Artificial Nipple, and am of opinion that it will answer the purpose extremely well. We have no other contrivance of this kind which affords the necessary relief; and I feel confident that the nipples prepared will be found eminently useful.

JOHN EBERLE, *M. D.*
Cincinnati, Aug. 28, 1833.

Having witnessed the artificial Nipple, invented by Dr. Pratt, in several cases of excoriated nipples, in which children attach themselves as readily as they would to the natural one, (and received their fill with perfect ease to the mother,) I have no hesitation of recommending it as decidedly superior to any thing of the kind with which I am acquainted.

T. P. BEERS, *M. D.*
Professor of Obstetricks.
New Haven, May 16, 1832.

I have witnessed the application of the above mentioned instrument in a case of excoriated nipples, and fully coincide with Dr. Beers, in the opinion expressed above.

V. M. DOW.
New Haven, May 16, 1832.

I have witnessed the use of the above named instrument in one case of excoriated nipples; the child nursed readily, and with ease to the mother, and so far as one case could do so, satisfied me that the instrument is a valuable one, and well calculated to answer the purpose for which it is designed.

EMPLOYMENT WANTED.

A YOUNG MAN wishes to be employed as assistant in a mercantile establishment, or in any other suitable situation, where a Clerk is required.

Good references can be given. Address H. E. through the Post Office. Oct. 3, 1833—3t

DOCTOR J. B. ROSE,

DENTIST,

(LATE OF REGENT STREET, LONDON,)

RESPECTFULLY informs the inhabitants of Pittsburgh and its vicinity, that he has taken an office, No. 80 Third street, next door to Dr. Burrell, where he performs all operations on the Teeth and Gums, in a style not to be surpassed.

☞ *Natural and Artificial Teeth* set in the best manner, and at the most reasonable charges.—*Also—Porcelain Teeth, from a single one to a whole set.*

On the first appearance of Tarter or Scurvy, Teeth should always be cleansed, as the corrosion of the tarter will, in a short time, reach the roots of the Teeth, and they will eventually fall out—when, by attending to them in season, they might be restored, at a trifling expense, to their original beauty.

The operation of Plugging and Filing the Teeth, when decayed, is so truly important that it is impossible to recommend it too earnestly to the attention of the public. Thousands of the most useful Teeth, which otherwise, on account of their painfulness, would be sacrificed by extraction, may thus be preserved for many years. Doctor R., convinced that he can render benefits beyond all price to those who need his assistance, will wait upon families at their residence, if requested, and Teeth brought to a Pearl White at one sitting.

☞ As Dr. R. intends to remain in town but a short time, as early a call as convenient is advisable.

Dr. R. has for sale the British Antiseptic Dentrifice. This elegant Tooth Wash, with a very little use, eradicates the Scurvy in Gums, and prevents the accumulation of Tarter, which not only blackens, but loosens the Teeth, and accelerates their decay; removes the causes of offensive breath, preserves the healthiness of the Gums, and renders the Teeth beautifully white. Price 50 cents per Bottle.

Public Sale of Real Estate.

IN pursuance of an order of the Orphan's Court, of the county of Allegheny, will be exposed to Public Sale, at the Court House, in the city of Pittsburgh, on Monday, the 21st day of October next, at 11 o'clock, A. M., the following described Real Estate, late the property of Oliver Ormsby, deceased, viz:—

1st. All that certain piece of land, situate in St. Clair township, on the Brownsville road, between 3 and 4 miles from the city of Pittsburgh, now occupied by Mrs. Nelson. This tract contains 49 acres, and 144 perches. There are upon it about 35 acres of cleared land; a substantial hewed log house, two stories high, and a fine bank of coal. It is bounded by land late of Henry Baldwin and others, and is part of a tract formerly owned by Fulton, and which was divided among the said Oliver Ormsby, Henry Baldwin, and William Wilkins.

2d. All that certain tract of land, situate on the south side of the Monongahela river, in Mifflin township, now occupied by Fergus Dempsey and George Ramsey. This tract contains, by the patent, 209¾ acres, and is bounded by land of Johnston Glass, Daniel Reisher, heirs of Robert Hays, Joseph West, and others, and by the river. There are about 150 acres of bottom land on this tract: the well known Ferry, called 'The Six Mile Ferry,' is also upon it. Nearly all the bottom land is cleared. The buildings are as follows, viz: —a log tavern house and barn at the Ferry, and a large frame barn, and a frame dwelling house upon the part occupied by George Ramsey. If desired by purchasers, the tract would be sold in two parts, to be divided by the run.

☞ The titles to these tracts are indisputable.—Any information, respecting the land, or the titles, can be obtained from the subscribers. Terms at sale.

Post Office Delinquency.

ON the 19th of March last, I wrote a letter to Lewis Clapier, Esq. of Philadelphia, which I placed in the Post Office at Saegerstown on the same day, and by information lately received from Mr. Clapier, I find the letter has not reached him. Enclosed with the letter, in a strong envelop, was a patent for donation lot No. 6, containing three hundred acres of land, situate in the first district, now Beaver county, granted by the State of Pennsylvania to Major George Tudor, for services in the revolutionary war, and dated the 5th day of October, 1787. On the back of the patent is a transfer of same by Major Tudor to Walter Stewart, dated the 14th day of February, 1792, and both recorded in the Recorder's office, in Allegheny county, in Deed Book F, page 129, &c. The whole package was directed to Lewis Clapier, Esq., Philadelphia, and the Post Office in Saegerstown on the day first above mentioned, charged the Philadelphia Post Office with the postage thereof, amounting to one dollar twelve and a half cents. This package must have been detained, and most probably purloined, in some intermediate Post Office, and whoever has done it, has not had the honesty to forward it to its place of destination. As the patent can be of use whatever to the person into whose hands it may have fallen, but is of consequence to myself, I will give a generous reward to any one will deliver it to me, or forward it to the Post Office in Saegerstown, Crawford county, Pennsylvania, or to Lewis Clapier, Esq., in Philadelphia.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States---In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and other works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. Six numbers will form a volume, for which an index and title page will be supplied, and also a Portrait of some distinguished Mechanic, as a Frontispiece. Terms, $3 per annum, in advance.

PITTSBURGH.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S

☞*WELCH MEDICAMENTUM.*☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing. D. D., Pastor of the Second Presbyterian Church in Utica.

UTICA, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S

COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

To Baltimore and Philadelphia

TRAVELLERS.

THE LINE OF STAGES between Chambersburgh and Baltimore, on the Somerset and Mountpleasant route, has been doubled, and now runs DAILY, (Mondays excepted,) leaving Chambersburgh *at day-light* in the morning, and arriving in Baltimore, early the same evening.

Passengers reach Philadelphia, in this way, the second afternoon, from Chambersburgh, without the loss of any rest; taking the splendid STEAM BOAT LINES, which set out at 6 o'clock in the morning, [via CHESAPEAKE AND DELAWARE CANAL, a work well worth the trip to see.]
REESIDE, Owner.

In all cases where the passengers desire to reach Baltimore in time for the 5 o'clock steam-boat to Philadelphia, they can do so by leaving Chambersburgh at one o'clock in the morning, or immediately after the arrival of the Western Mail Stage. In this way, they arrive in Philadelphia, by eight o'clock the *second morning*, from Chambersburgh.

☞ When a load offers, the stage will run on Mondays. April 23, 1830.—tf.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.
